Flag: Flag for follow up

Robert,

We have received the 10 copies of the CIP, and they are available to the public with the rest of our related materials. I have not yet seen the larger document. Will it be in a binder?

Subject: more EPA documents for the library

Hey Tony,

I hope all is going well. I just wanted to give you a heads up that you can expect a few more documents to the EPA information repository for the CFAC Superfund at the Imagineif Library over the next week or two.

Today, I am sending you 10 copies of a draft community involvement plan. These are for anyone to take away and, if they are interested, provide feedback to me. If these run out, just let me know and I'll send you more hardcopies.

You will also be receiving the initial data and a summary report from the remedial investigation at the CFAC site. That will likely be a large document.

If you don't mind, please send me an email when you receive these just so I can track. I will be out of the office for a couple of weeks and I will plan to touch base with you shortly after I return.

I will include you on our distribution list for updates about the CFAC Site to keep you abreast of events. These come out on a (roughly) quarterly basis. I am sending the next one out later today.

Let me know if you have questions. Thank you Tony for all of your help and support!
